Grand Knight's Report

My Brother Knights,

If you are like me, you will feel the summer has past just too quickly, and with the close of summer you will have mixed feelings about the start of another year of meetings and activities. To me September is like a hockey game, the puck is dropped on September 1, we are then swept into the fray of balancing our K of C commitments with family, work, and other community commitments, and then the whistle blows at Christmas to signify the end of the first period.

We have a busy schedule ahead of us with numerous activities and I am optimistic that we will be successful in our endeavours (please see the event schedule printed in this bulletin). The success is dependent on each of us taking on various tasks and responsibilities. We all know the adage "many hands make light work" and I hope that this will be true for the coming year.

I am thankful for all of you that have agreed to take on the responsibility for the various events on our calendar. I am also hopeful that each of you will not be Knight's in Name Only but a "Knight of Action". Your participation allows us to develop that fraternal bond that I believe is so important in building community. In the next couple of months we will have our regular pancake breakfasts plus 2 new events; the soccer challenge and a Spanish Night. I urge you to not wait for a phone call from a Brother Knight asking for your assistance but to take the step to contact me or a Brother Knight and offer your services.

In our roll as a "Knight of Action" I ask that each of us make an effort to recruit one new member to our council. If each of us makes the effort to encourage just one gentleman to become a member we will be rewarded with a council that will indeed be a council of Action.

I am excited about the coming year and the various new events we will hold and I look forward to working and socializing with each of you brother Knights.

Vivat Jesus

Humour Corner

Little Tommy was having trouble in math, so his mother enrolled him in a Catholic school, thinking the discipline would help him. When Tommy came home with an A on his first report card, his mother was thrilled "Tommy, how did you do it!" "Well," he replied, "when I got to school and I saw the guy nailed to the plus sign, I knew they were serious about math."

Editor's Note
